

PREMIER OIL PACKAGING SOLUTION

ANTI-COUNTERFEITING & BRAND PROTECTION THAT CONSUMERS LOVE

AT A GLANCE

AeroFlexx delivers superior anti-counterfeiting packaging addressing the global need to protect products and the brand's reputation – all while accelerating sustainability commitments.

STRATEGIES

Protection from tampering through unique designs and features that are difficult to replicate. **AeroFlexx Paks can only be produced on highly controlled and proprietary production equipment.**

Product safety assurance through supply chain tracing, utilizing artwork, tracking technology, and embedded invisible features instills consumer confidence in product authenticity. **AeroFlexx Paks cannot be opened and refilled with fake products convincingly.**

Building consumer trust and brand loyalty is reinforced by product security, safety, and integrity. **AeroFlexx Pak supports both the DIY (do it yourself) or DIFM (do it for me) originating from a trusted source.**

AEROFLEXX SOLUTION

AeroFlexx's innovative technology delivers a lightweight flexible package designed to act like a rigid bottle. Its proprietary integrated valve eliminates the need for discrete closures, removes the need for pumps, and enhances the consumer use experience, while its proprietary air frame provides structural rigidity throughout the entire package lifecycle.

SPILL RESISTANT
NO GLUG DISPENSING

TAMPER-PROOF
HERMETICALLY SEALED

UP TO 85% LESS PLASTIC
